BOOKMAKING AND MECHANICS.

The gossip from the Ohio-Kentucky racing field declare that at the recent hobnob of the secretaries of Latonia, Oakley, St. Louis and Louisville it was agreed, that mutual betting was the Western turf's salvation and that an agreement to adopt it for 1897 was reached. The Cincinnati Enquirer—most unreliable—parades the gossip. So! Are the secretaries the doctors? Can they decide for their associations? Where does Mr. Applegate come in?

Then the turf world is informed that "the management of the Oakley track have written to a firm in Paris, requesting that the latest device in the way of mutual betting machines be forwarded at once for inspection. Unless the Oakley management can secure the very latest machine of the same pattern as those used in Paris and Australia they will not attempt to introduce the mutual style of betting. If these machines are forwarded and suit the management the next meeting at Oakley will be conducted without bookmakers."

To Gods and Little Fishes—especially the Little Fishes. Blind trials have fooled humanity for centuries. "Dead ones" have not accumulated so much age. They are just as deadly though. The Mutual system has but one chance. That is the forcible one of legislation. It goes to the judicial throat in more palatable guise than bookmaking. As long as any western racetrack can get rid of the friction of handling the public money and collect \$2000 or so per day for its betting, any and every race track will so profitably relieve itself. That's business sense. There's no more morality about the totalizer than the bookmaker. The winner is on the display of both. Then, too, a "dead one" is a "dead one" on both exhibits. It would cost a track \$25,000 or more to put in a stock of Mutual machines. France be blowed! American ingenuity outclasses that of the ingenuity of any other country on earth. The records of invention prove this statement. It would also cost a track from \$200 to \$350 per day to operate a full set of Mutual machines. This means, for a fifty days meeting, an averaged original cost of plant—divided by days—and outlay—expense—per day, of say on the average \$750 in addition to the lost \$1500 or \$2000 realized for booking permission. The average daily loss from the sources of takings and expenses, can well be estimated at \$2500 per day. Decency suggests a racing club's "rake-off," "Kitty," percentage, or what one likes to term its kee-ings, for profit and friction at 2½ per cent maximum. Commonsense insinuates a percentage of about one per cent. The volume of healthy betting is the dictating physician. At 2½ per cent, a track would have to handle \$100,000 per day to get even. At the more reasonable 1 per cent, the Mutuals would have to take in \$250,000.

Even the first sum and percentage means disaster for tracks of the Oakley, Latonia, Louisville and St. Louis order, whenever western racing is normal—Chicago alive and doing business. A taking of \$100,000 per day is equivalent to twenty books in a ring, each handling \$5,000 per day, or \$1,000 per race to a programme of five races. That average. The 1 per cent figure is sheer ruin to the same tracks, even in the days of their prosperity—with Chicago "in the doldrums." On a 1 per cent basis to equal the receipts from twenty books and expenses the mutuals takings would have to be \$250,000 per day or \$50,000 per race. These figures slur the item of ticket system and expert accounting—expensive and important ones too.

The Cincinnati Mutual talk is either fake or that of men who have not studied the situation or are bluffing for a purpose. The fake or have-not-considered-the-situation conclusion is eas-

iest reached—material considered. The Mutual plan, unless made necessary by legislation, is tommy-rot. It isn't American or definite, offers no advantage or protection to the rank and file that booking doesn't offer and is clumsy and medieval. If the fatheadism of foreign novelty for novelty's sake alone doesn't think this argument for American booking well grounded it can put its map on paper. There's more reasons—with charts on the side—in favor of booking. They do not either cover the strong points and every day arguments about self sustenance and do-the-best-you-can-with-what-you-have-to-handle—a strong and supportive maxim with every bookmaker who wants to deal with form as he sees it every race and every day.

RACING GOSSIP.

The Bulletin of San Francisco says of two well known Chicagoese in turf lines:

Tully Coulter, owner of Redskin, California and other good ones, arrived from Chicago Thursday night and was at the races yesterday. Dan Honig declared that he knew Tully was in town before he ever heard his name mentioned at the track. Dan says he never knew of a cold wave striking a town but what Tully blew in right behind. "There are icicles on you," remarked Dan joshingly, grasping the Chicago turfman's hands. "When I got up this morning I said to my wife, 'Coulter is in town as sure as you live. He follows cold waves or they follow him, I don't know which.'" But Tully soon closed Dan up mentioning "mule-heads" to him. Somehow Dan does not like to hear that word pronounced. Tully said he found his stable, which has been here nearly a month, in fair condition.

That fellow Denny Lynch who is the mephistophiles in the evil smelling Fitzsimmons-Sharkey episode, is a bad egg. Before he went to the turf—for the turf's evil—he was pecking at base ball in a nasty way. He hails from Boston, Mass., and is an all round live-by-his-wits citizen. He was, by the way, ruled off the turf while operating the Arizona Stable. Gun-fighter Earp is an Arizonian. Singular coincidence! Lynch turned a trick at Washington Park in 1894 with Contribution.

The Detroit gang used Wang as Hernani at Iron Hill, Md., last Thursday. Col. May and Carter Hall recognized the horse after he had won. He was disqualified and the race awarded to Mask. The same gang is said to have used Tarentum as Minnetonka at Singery, Md., on November 26, and won a trunk full of money. There was no loss or gain to any one in Chicago over either race. Whoever in Chicago takes commission bets, declines Iron Hill business. They have no principles there. The Kentucky rooms screamed, with reason, before the Hernani race. The Iron Hill decision bettered them some \$11,000. They kept \$3000 and would have paid out \$8000 beside that amount had Hernani been declared the winner.

FAMOUS ENGLISH RACE COURSES.

Below is given an interesting schedule of the present English courses and their measurements:

The Round course.....	3	4	139

The Audley End course (from the starting point of the Two-Year-Old course to the end of the Beacon course).....	1	7	42
Across the Flat.....	1	2	73
The Rowley mile (last mile Across the Flat).....	1	0	17

The Abingdon Mile (on the Flat)....	1	0	0

The Dewhurst Plate course (last seven furlongs of the Rowley Mile)	0	7	0
The first five furlongs of the Abingdon Mile.....	0	5	0
The last five furlongs of the Ditch Mile.....	0	5	0

From the above table of distances it will be seen that only in some instances can the time test be applied in comparing American horses with English horses, for the reason that many of the English courses exceed or fall short of the distance specified. A mile and a distance is a very different thing to a mile, the 240 yards at the finish making all the difference in the world.
